

Employee Spotlight – Drew Rothman

How long have you been working at RT New Day?

I am in my second year with RT New Day; I began in July 2018.

As a Consultant, what are your primary responsibilities?

My focus is on making the life of my client a little easier. This is accomplished through prompt response to questions or concerns, as well as by identifying, negotiating and explaining the optimal environmental or construction-related professional insurance coverage for our retail clients to help retain existing clients and bring new clients into the fold.

What do you find to be the most enjoyable parts of your job?

Winning new business for our partners! I am motivated by serving as a resource for our partners in growing their business.

How do you like to spend your spare time when you are not at RT New Day?

Spending time playing sports with my 8-year-old and 5-year-old sons, while holding my 1-year-old daughter and waving to my wife who is hopefully getting a chance to relax. I'm also into craft/Belgian beers.
