Dan Jaffe is a Vice President on the OakBridge Team specializing in the placement of E&O and Cyber insurance. Dan joined RT in 2025, following his role at another wholesale brokerage where he managed the Tech & Cyber desk for the Mid-Atlantic region, developing strong expertise for these products.

Prior to his career in insurance, Dan co-owned and operated a media production company that primarily served small businesses, non-profits, and educational institutions. Running this business prepared him well for his role as a broker, instilling a client-first mindset where relationships are paramount and solutions are tailored to meet specific needs.

In practice, this means Dan is deeply invested in understanding the clients' risk profile and objectives before discussing

coverage. He values integrity and transparency in every interaction, pays close attention to detail in policy structure and placement, and holds himself to a high standard of excellence. His relationship-driven approach allows him to deliver thoughtful solutions while serving as a reliable long-term resource to retail brokers, insureds, and underwriters alike.

Outside of work, Dan enjoys spending time with his wife and young children. They lead a quiet life in Philadelphia, though it gets rowdy when the Eagles are playing. Their lives are marked by a deep love for their community, with the ultimate goal of being a blessing to those around them.
